## Memorandum

Date: September 21, 2007

To: Brian Issa, City Planner  
City of Veneta

From: Heather Hill, Fire Prevention Coordinator  
Lane County Fire District #1

Re: Hillside Development Code

The following comments are regarding the proposed Hillside Development Code:

- ◆ The Fire District would like to recommend that applicants submit a plan for maintaining vegetation in their development. This may include the use of CC&Rs or dedicating space to the City for maintenance. The Fire District is concerned about the hazards of overgrown or unmanaged fuels, especially in residential areas.
  - Keep all grasses mowed and irrigated if possible.
  - Keep all trees limbed a minimum of 10 feet from the ground.
  - Keep underbrush cleared.
